10:30am-11:30am

Presenter: North Carolina Museum of Natural Sciences
Raleigh, North Carolina 27601-1029

Theme: Amphibians and Reptiles of North Carolina

Ages 4 and up

Amphibians and reptiles are important, but often overlooked, component of many southeastern ecosystems. Recently, many amphibian and Reptiles populations have experienced drastic declines, thus increasing the need for studies of their biology and conservation. Discussion will be on Lizards, Salamanders, Frogs and Toads, Snakes, Alligator, and Turtles. This will be a fun day for all.

12 student & 6 Adults
